CORE COMPETENCIES

SCHEDULED ROUTES & FINAL MILE

Dedicated daily and weekly routes, multi-stop service, same-day dispatch, documents, parcels, supplies and proof-of-delivery reporting.

BOX TRUCK & TRACTOR-TRAILER FREIGHT

Capacity matched to the shipment and lane, including straight/box trucks, refrigerated equipment and tractor-trailers for dedicated, regional and interstate work.

WAREHOUSING, STAGING & CROSS-DOCK

Receiving, short-term storage, pallet staging, load transfer, consolidation, outbound scheduling and transportation coordination.

MEDICAL & CONTROLLED LOGISTICS

Clinical and veterinary specimens, pharmaceuticals, blood products and sterile instruments with documented custody and temperature controls when required.

NETWORK DESIGN & PROGRAM MANAGEMENT

Route and lane design, facility roles, capacity planning, SOPs, KPIs, site mobilization, reporting and continuous improvement.

WHY SAS LOGISTICS

- ✓ **Matched capacity.** Personnel, vehicles, carriers and facilities are aligned to the contract requirement and place of performance.
- ✓ **Managed startup.** A regional manager remains on site through transition and conducts regular follow-up visits.
- ✓ **Established regional networks.** 70+ DMV drivers and 50+ Philadelphia/New Jersey drivers, with active contracts in additional states.
- ✓ **Demonstrated surge capability.** Experience includes Hurricane Ian blood logistics and COVID-19 specimen-volume response.
